CONTENTS OF VOLUME 40

Adamson, D. Expansion and division in auxin-treated plant cells, 719.
Alex, J. F. The taxonomy, history, and distribution of *Linaria dalmatica*, 295.
Badenhuizen, N. P. Observations on the origin and multiplication of plastids, 861.
Baenziger, H. Supernumerary chromosomes in diploid and tetraploid forms of crested wheatgrass, 549.
Bailey, D. L. See Subba-Rao, N.S., 203.
Bailey, D. L. and **Lowther, R. L.** Studies on the nature of resistance in tomato to *Cladosporium fulvum* Cooke, 1095.
Ballantyne, D. J. A growth inhibitor from the roots of *Chrysanthemum morifolium* Ramat. and its influence upon the gibberellic acid response, 1229.
Bannan, M. W. Cambial behavior with reference to cell length and ring width in *Pinus strobus* L., 1057.
Barnes, R. L. Ureide synthesis and translocation in silver maple seedlings, 563.
Barron, G. L. *Stachybotrys aurantia* sp. nov. from soil, 257.
New species and new records of *Oidiodendron*, 589.
The parasexual cycle and linkage relationships in the storage rot fungus *Penicillium expansum*, 1603.
Barron, G. L. and **Busch, L. V.** Studies on the soil hyphomycete *Scolecobasidium*, 77.
Barron, G. L. and **MacNeill, B. H.** A simplified procedure for demonstrating the parasexual cycle in *Aspergillus*, 1321.
Bassett, I. J., Mulligan, G. A., and **Frankton, C.** Poverty weed, *Iva axillaris*, in Canada and the United States, 1243.
Bassett, I. J. and **Terasmae, J.** Ragweeds, *Ambrosia* species, in Canada and their history in postglacial time, 141.
Benedict, W. G. Haplophase activity in *Stemonitis fusca* Roth, 71.
Bidwell, R. G. S. See Subba-Rao, N.S., 203.
Bidwell, R. G. S. and **Ghosh, N. R.** Photosynthesis and metabolism in marine algae. IV. The fate of C^{14}-mannitol in *Fucus vesiculosus*, 803.
Bier, J. E. and **Rowat, M. H.** The relation of bark moisture to the development of canker diseases caused by native, facultative parasites. VII. Some effects of the saprophytes on the bark of poplar and willow on the incidence of *Hypoxylon* canker, 61.
The relation of bark moisture to the development of canker diseases caused by native, facultative parasites. VIII. Ascospore infection of *Hypoxylon pruinatum* (Klotzsch) Cke., 897.
Bird, C. D. Mosses of the prairies of west-central Canada, 35.
Bryophytes of the Cypress Hills Provincial Parks, Alberta and Saskatchewan, 575.
Bloomberg, W. J. *Cytospora* canker of poplars: factors influencing the development of the disease, 1271.
Cytospora canker of poplars: the moisture relations and anatomy of the host, 1281.
Bohm, B. A. and **Towers, G. H. N.** A study of phenolic compounds in *Impatiens*, 677.
Boll, W. G. See Willemot, C., 1107.
Bolton, A. T. Pathogenic variation in *Mycosphaerella fragariae*, 647.
Bonner, J. and **Huang, R.-C. C.** Chromosomal control of enzyme synthesis, 1487.
Bowden, W. M. Cytotaxonomy of the native and adventive species of *Hordeum, Eremopyrum, Secale, Sitanion,* and *Triticum* in Canada, 1675.
Bowden, W. M. and **Senn, H. A.** Chromosome numbers in 28 grass genera from South America, 1115.
Bowerman, C. A. and **Groves, J. W.** Notes on fungi from Northern Canada. V. Gasteromycetes, 239.
Boyer, M. G. A leaf-spotting disease of hybrid and native aspen, 1237.
Boyes, J. W. See Sharma, K. D., 213.
Brodie, H. J. Culture and taxonomy of *Cyathus earlei*, 1483.
Busch, L. V. See Barron, G. L., 77.
Cain, R. F. Studies on coprophilous Ascomycetes. VIII. New species of *Podospora*, 447.
See also Reid, J., 837.
Carmichael, J. W. Chrysosporium and some other aleuriosporic hyphomycetes, 1137.
Chelack, W. S. See Hagborg, W. A. F., 957.
Childers, W. R. The nature and inheritance of a yellow-leaf character in *Medicago sativa* L., 89.
Chiykowski, L. N. Clover phyllody virus in Canada and its transmission, 397.
Scaphytopius acutus (Say), a newly discovered vector of celery-infecting aster-yellows virus, 799.
Clover phyllody and strawberry green petal diseases, caused by the same virus in Eastern Canada, 1615.

Clark, M. C. See MacKinnon, J. P., 1562.
Colotelo, N. and **Grinchenko, A. H. H.** Growth of *Kabatiella caulivora* on different media, 439.
Cormack, R. G. H. Alteration of leaf size and structure in *Convallaria majalis* caused by extreme shade, 383.
Corns, Wm. G. and **Schraa, R. J.** Dormancy and germination of seeds of silverberry (*Elaeagnus commutata* Bernh.), 1051.
Coulombe, L. J. See Paquin, R., 533.
Craigie, J. H. and **Green, G. J.** Nuclear behavior leading to conjugate association in haploid infections of *Puccinia graminis*, 163.
Davidson, T. R. See Townshend, J. L., 543.
Dodson, E. O. and **Yu, C. K.** Depression of germination in cereals treated with severe centrifugal force, 1714.
Elliott, M. E. *Streptotinia caulophylli* sp. nov. produced in culture, 1197.
Etheridge, D. E. Selective action of fungus-inhibitory properties of balsam fir heartwood, 1459.
Etheridge, D. E. and **Morin, L. A.** Wetwood formation in balsam fir, 1335.
Fensom, D. S. The bioelectric potentials of plants and their functional significance. IV. Changes in the rate of water absorption in excised stems of *Acer saccharum* induced by applied electromotive forces: The "flushing effect", 405.
Fisher, J. E. See Friend, D. J. C., 939, 1299.
Forsyth, F. R. Inhibition by nickel of the respiration and development of established infections on Thatcher wheat caused by *Puccinia recondita* Rob ex Desm., 415.
Forward, D. F. and **Nolan, N. J.** Growth and morphogenesis in the Canadian forest species. VI. The significance of specific increment of cambial area in *Pinus resinosa* Ait., 95.
Forward, D. F. See Hellebust, J. A., 113.
Foster, R. E. See Pielou, E. C., 1176.
Frankton, C. See Bassett, I. J., 1243; Moore, R. J., 281, 1187; Mulligan, G. A., 1411.
Fraser, D. A. Apical and radial growth of white spruce (*Picea glauca* (Moench) Voss) at Chalk River, Ontario, Canada, 659.
Frew, B. P. See Nobles, M. K., 987.
Friend, D. J. C., Helson, V. A., and **Fisher, J. E.** The rate of dry weight accumulation in Marquis wheat as affected by temperature and light intensity, 939.
Leaf growth in Marquis wheat, as regulated by temperature, light intensity, and daylength, 1299.
Funk, A. *Durandiella pseudotsugae* n. sp.; taxonomy, cultural characteristics, life history, and host response, 331.
Gfeller, F. See Siminovitch, D., 1267.
Ghosh, N. R. See Bidwell, R. G. S., 803.
Good, H. M. and **Nelson, J. I.** Fungi associated with *Fomes igniarius* var. *populinus* in living poplar trees and their probable significance in decay, 615.
...os, R. D. and **Timonin, M. I.** Fungi from the rhizosphere of banana in Honduras, 1371.
Grant, W. F. Speciation and nomenclature in the genus *Celosia*, 1355.
Green, G. J. See Craigie, J. H., 163.
Greenidge, K. N. H. Dendrograph patterns in decapitated trees: preliminary observations, 1063.
Grinchenko, A. H. H. See Colotelo, N., 439.
Groves, J. W. See Bowerman, C. A., 239.
Hagborg, W. A. F. and **Chelack, W. S.** Bioassay of antibiotic P-9 by the direct response of stem rust of wheat, 957.
Hall, I. V. See Lockhart, C. L., 1561.
Hamlin, S. A. See Ross, R. G., 629.
Hauschild, A. H. W., Nelson, C. D., and **Krotkov, G.** The effect of light quality on the products of photosynthesis in *Chlorella vulgaris*, 179.
The effect of light quality on the products of photosynthesis in green and blue-green algae, and in photosynthetic bacteria, 1619.
Hay, J. R. Experiments on the mechanism of induced dormancy in wild oats, *Avena fatua* L., 191.
Experiments on the relative susceptibility of weeds to auxin herbicides, 1401.
Heald, D. P. See Kemp, W. G., 901.
Hellebust, J. A. and **Forward, D. F.** The invertase of the corn radicle and its activity in successive stages of growth, 113.
Helson, V. A. See Friend, D. J. C., 939, 1299.
Helson, V. A. and **Minshall, Wm. H.** Effects of petroleum oils on the carbon dioxide uptake in the apparent photosynthesis of parsnip and mustard, 887.

Hennebert, G. L. *Wardomyces* and *Asteromyces*, 1203.
Huang, R.-C. C. See Bonner, J., 1487.
Kasting, R. See Lopatecki, L. E., 1223.
Katznelson, H., Peterson, E. A., and **Rouatt, J. W.** Phosphate-dissolving microorganisms on seed and in the root zone of plants, 1181.
Katznelson, H., Rouatt, J. W., and **Peterson, E. A.** The rhizosphere effect of mycorrhizal and non-mycorrhizal roots of yellow birch seedlings, 377.
Kemp, W. G. and **Heald, D. P.** Interaction of two unrelated carnation viruses in *Dianthus barbatus* L., 901.
Kendrick, W. B. The *Leptographium* complex. *Verticicladiella* Hughes, 771.
Koyama, T. The genus *Scirpus* Linn. Some North American aphylloid species, 913.
Krotkov, G. See Hauschild, A. H. W., 179, 1619; Scott, K. J., 1251; Shiroya, T., 669, 1125; Tregunna, E. B., 317.
Kumar, D. See Mehrotra, B. S., 1399.
LaCroix, J. D. Morphological anomalies in leaves of *Pinus elliottii* Engelm., 686.
LaCroix, L. J., Naylor, J., and **Larter, E. N.** Factors controlling embryo growth and development in barley (*Hordeum vulgare* L.), 1515.
Larter, E. N. See LaCroix, L. J., 1515.
Leach, C. M. Sporulation of diverse species of fungi under near-ultraviolet radiation, 151.
The quantitative and qualitative relationship of ultraviolet and visible radiation to the induction of reproduction in *Ascochyta pisi*, 1577.
